## EDUCATION

### The Game Assembly - Malmö

*Game Programmer - Vocational Course | 2024-2027*

Intensive 2 year hands-on education focused on emulating a professional game dev environment. Entails 7 game projects in cross-disciplinary teams using Scrum and agile workflows. Gained practical experience in large-scale collaboration, code architecture, and production pipelines. Developed strong foundations in gameplay, graphics, and systems programming, along with networking, data structures, algorithms, and design patterns.

### NTI Gymnasiet - Stockholm

*Game Design & Animation | 2016-2020*

Studied game design fundamentals and 2D/3D content creation. Gained experience in animation and graphical design. Created a custom 3D character with stylized procedural shading and emotion-based walk cycles as a final project.
